TENTATIVE PROGRAM

Cardiology World Conference

OCTOBER 24-25, 2019
TOKYO, JAPAN

Theme: Advances in Cardiology: Research and Innovations

https://cardiologyworldconference.com/
Keynote Presentations

Title: Oral pathogens, CVD and home oral care
James L. Ratcliff, CEO of Rowpar Pharmaceuticals, North America

Title: Coronary artery spasm: Pathogenesis, diagnosis and treatment
John Horowitz, University of Adelaide, Australia

Title: Role of myocardial perfusion imaging in the diagnosis of coronary artery disease
Karan Peepre, All India Institute of Medical Sciences, Raipur, India

Title: Establishment of a new prediction score in corporation with 0-hour/ 1-hour algorithm using high sensitivity troponin T suggest an optimal timing for coronary angiography in patients with chest pain
Kenji Inoue, Juntendo University Nerima Hospital, Japan

Title: Biomarkers guided therapy for risk stratification and prognostication of patients treated for acute coronary syndrome
Marija Vavlukis, Saints Cyril and Methodius University of Skopje, Republic of Macedonia

Title: Impact of allopurinol on endothelial function in diabetic patients affected with coronary artery disease: Results from the randomized allience trial
Marouane Boukhris, University of Tunis El Manar, Tunisia

Title: Features of clinical and biochemical parameters, quality of life and prognosis of patients with CAD in combination with type 2 diabetes and COPD
Mekhman N Mamedov, National Research Center for Preventive Medicine, Russia

Title: What is new in heart failure?
Naresh Ranjith, University of KwaZulu-Natal, South Africa

Title: Time to revisit timing in primary PCI for STEMI
Richard Lim, The University of Queensland, Australia

Title: TGF-β signaling in smooth muscle differentiation and vascular remodeling
Shiyou Chen, University of Georgia, USA

Title: Recanalization of the superior vena cava and its tributaries in patients requiring chronic venous access or pacemaker insertion, techniques, tips, and safety
Stephen Kee, UCLA Health, USA

Title: Novel Approaches for endogenous heart repair
Tamer M A Mohamed, University of Louisville, USA

Title: Atrial fibrillation ablation: Where do we stand now?
Zoltan Csanadi, University of Debrecen, Hungary

Oral Presentations

Title: A low-cost, automatic, external defibrillator and pacemaker for home/office to prevent sudden cardiac death
A. Teddy Weiss, Hadassah University Hospital, Israel

Title: Improve upper extremity function following transradial PCI; Slender PCI and its potential benefits – improve study
B.E. Scholzel, Amphia Hospital, Netherlands

Title: Innovations and alternatives for MRI in patients with implanted cardiac devices
Christoph Schukro, Medical University of Vienna, Austria
Title: Role of medicinal plants on remedies and prevention of cardiovascular disorders in Iran- A review  
Ebrahim Alinia Ahandani, Payame Noor University, Iran

Title: 4D transesophageal echocardiography in transcatheter closure of atrial septal aneurysms  
Fatma Aboalsoud Taha, Tanta University, Egypt

Title: Diagnostic and interventional coronary procedures using distal radial artery in anatomical snuff box: Initial experience at our center  
Fraz Ahmad, Army Cardiac Centre, Lahore

Title: Attenuating TET2 and transferring endothelial cell-derived exosomes to vascular smooth muscle cell induced by activating CD137 signaling promotes neointimal formation  
Guangyao Zang, Affiliated Hospital of Jiangsu University, China

Title: Hypertensive retinopathy can predict severity of coronary artery disease in hypertensive patients presenting with angina  
Hany T Asklany, Minia University, Egypt

Title: Clinical outcomes of valve sparing root replacement in patients with Annuloaortic ectasia  
Jae Won Lee, Asan Medical Center, University of Ulsan College of Medicine, South Korea

Title: New paradigm in pharmacological management of serum potassium levels in acute coronary syndrome: Which cut-off is optimal and safe?  
Jeffri Gunawan, National Cipto Mangunkusumo State Hospital, Universitas Indonesia, Indonesia

Title: A novel biomarker for cardiovascular conditions  
Jian Guan, University of Auckland, New Zealand

Title: Autostatis: Quantitative assessment of autonomic regulation with applications to cardiac care  
Jian Kang Wu, The University of Chinese Academy of Sciences, China

Title: Hepatic pathology in patients after the fontan operation  
Ken Pen Weng, Kaohsiung Veterans General Hospital, Taiwan

Title: Electrocardiogram of the neonate and infant  
Konrad Brockmeier, University of Cologne, Germany

Title: Unusual intracardiac mass beyond common sense  
Lianyi Wang, First Hospital of Tsinghua University, China

Title: Premature and accelerated atherosclerosis in an undiagnosed takayasu arteritis: A case report  
Lorielle Marie E. Galvez, Cardinal Santos Medical Center, Philippines

Title: Relationship of glycemic status, arterial hypertension and macrovascular complications: Results of a multicenter cohort study  
Mekhman N Mamedov, National Research Center for Preventive Medicine, Russia

Title: Electromagnetic blood flow in human body and initial factors of atherosclerosis  
Merab Beraia, F.Todua Medical Center, Georgia

Title: Anaesthesia in patients equipped with cardiac devices  
Michael Booke, Klinikum Frankfurt Main-Taunus, Germany
Title: Treatment of mild cognitive impairment due to Alzheimer’s disease or mild dementia of Alzheimer’s type: Design and rationale of the randomized pivotal study of renew TM NCP-5  
Patrick M. Moriarty, University of Kansas Medical Center, Kansas City, KS, USA

Title: New aspects of regulation of cardiac action potential duration  
Peter P. Nanasi, University of Debrecen, Hungary

Title: Predictors of sleep disturbance in patients with heart failure  
Polly Wai Chi Li, The Chinese University of Hong Kong, Hong Kong

Title: Relationship of mean arterial pressure with other cardiac and biological factors  
Rabindra Nath Das, University of Burdwan, India

Title: Investigating a role for smooth muscle thymosin β4 in vascular protection  
Rachel Davies, University of Oxford, United Kingdom

Title: Obstructive sleep apnea and arrhythmias  
Raffaele Maio, Campus Universitario di Germaneto, Italy

Title: Next-Generation Sequencing in clinical diagnostics: Genetic testing, variant classification, and functional analysis  
Rick Kamps, Maastricht University, Netherlands

Title: Review of factors that affect survival during resuscitation, a retrospective study at national heart institute, Malaysia  
Rudy Wee, National Heart Institute, Malaysia

Title: Out of hospital cardiac arrest in North Emirates (UAE)  
Saad AlQahtani, United Arab Emirates

Title: Trans-catheter PFO Closure; clinical indications, technique and midterm follow up, case series  
Sahar El Shedoudy, Tanta University, Egypt

Title: Chronic heart failure and exercise: update and tips  
Samer Ellahham, Cleveland Clinic, USA

Title: Direct evidence of viral infection and mitochondrial alterations in the brain of fetuses at high risk for schizophrenia  
Segundo Mesa Castillo, Psychiatric Hospital of Havana, Cuba

Title: Music-paced physical activity improving physical activity level and cardiac risk factors among Chinese CHD patients with overweight or obesity  
Sek Ying Chair, The Chinese University of Hong Kong, China

Title: Effects of a theory-based educational intervention on healthy behaviors among overweight or obese post-menopausal women  
Sek Ying Chair, The Chinese University of Hong Kong, China

Title: Post conditioning with lactate-enriched blood for preventing myocardial reperfusion injury  
Takashi Koyama, Saitama Municipal Hospital, Japan

Title: Effect of endurance training conducted under hypoxia conditions, on change of exercise tolerance of patients after myocardial heart infarction (STEMI) - A pilot study  
Tomasz Gabrys, University of West Bohemia In Plzen, Czech Republic
Title: Assessment of right ventricular systolic function by two dimensional echocardiography and longitudinal strain: Is right ventricular systolic function influenced by right atrial function
Veena Raizada, University of New Mexico Health Science center, USA

Title: Young ST-elevation MI: Profile and outcome
Vivek Kumar, Max Super Speciality Hospital, Saket, New Delhi, India

Title: Pharmaco invasive strategy for STEMI reperfusion in North African countries
Walid Jomaa, Fattouma Bourguiba University Hospital, Tunisia

Title: CD137-CD137L signaling promotes calcification in vascular smooth muscle cells by regulating macrophage-derived MMP-9
Xu Yu, Affiliated Hospital of Jiangsu University, China

Title: The role of mechanical circulatory support in advanced heart failure
Zumrut Tuba Demirozu, Koc University Hospital, Turkey

Title: Hypertension and myocardial infarction risk from inhalation of iron brake particulate matter
William J. Rowe, Medical University of Ohio at Toledo, United States

Title: Transient and permanent CIED malfunctions during oncologic radiotherapy: A prospective, randomized, blinded, in-vitro evaluation
Enrico Di Girolamo, SS. Annunziata Hospital Chieti, Italy

Title: Clinical parameters and in-hospital complications differences depending on gender in patients with ST-elevation myocardial infarction
Harutyun Petrosyan, Erebouni Medical Center, Armenia

Title: Acute limb ischemia: A case report
Hsiu Yu Lai, Chimei Medical Center, China

Title: Irregular wide complex tachycardia in a young man
Ioannis Xirogiannis, General Hospital of Lamia, Greece

Title: Current paradigm on how to approach atrial flutter in young population with no identifiable coronary risk factors
Jeffri Gunawan, National Cipto Mangunkusumo State Hospital, Universitas Indonesia, Indonesia

Title: Case report of 23 years old female with atrioventricular nodal re-entry tachycardia (AVNRT)
JesslyV Valentina and Anggit Triadiana, Medical Faculty of Sebelas Maret University, Indonesia

Title: Echocardiographic assessment of left ventricular filling pressures using data from invasive left ventricular filling pressures in patients with normal left ventricular ejection fraction
Jinchuan Yan, Affiliated Hospital of Jiangsu University, China
Title: Association between Parkinson disease and the risk of cardiovascular disease and all-cause mortality: A nationwide, register-based cohort study
Joo Hyun Park, Korea University Ansan Hospital, Republic of Korea

Title: Thalidomide as a treatment for non-Langerhans cell histiocytosis with cardiac infiltration: A case report
Justin Ryan Tan, Chinese General Hospital, Philippines

Title: Predictors of maintenance of normal sinus rhythm after successful electrical cardioversion
Ljilja Music, Clinical Center of Montenegro, Montenegro

Title: Risk factors of cardiovascular diseases in the population participating in heart day 2018 activities organized by the Burundian society of Cardiology, Bujumbura
Nkurunziza Armand, Burundian Society of Cardiology, Burundi

Title: Asymmetrical dimethylarginine in uncontrolled arterial hypertension
Dinara Natkina, Sechenov University, Russia

Title: Vaccine against S. pyogenes
Luiza Guilherme, University of Sao Paulo, Brazil

Speak Slots Available

Looking forward to join you in
CWC-2019
